

# The most difficult school subject (according to Jeopardy)

ERHS 535

Jacob Fontenot, Burton Karger, Eric Wendt, Caroline Wendt

12/13/2019

# Overview

# Research question

What are the most important and most difficult school subjects according to Jeopardy?

# Introduction

- ▶ Initial data investigation showed subject bias
- ▶ Prompted us to consider traditional school subjects
- ▶ Decided to compare “Jeopardy-based” education to public school education

## Methods: Overview

- ▶ Created a dataframe of school subjects and related terms (from Quizlet)
- ▶ Separated Jeopardy dataset into 6 subjects (science, math, history, english, geography, and art) by “joining” it with the Quizlet dataframe

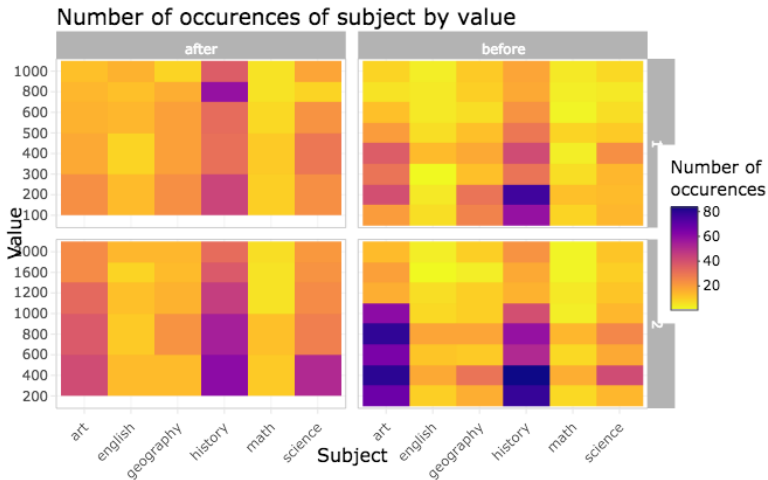

## Methods: Joining dataframes

- ▶ Converted all Jeopardy data and school subject data to lowercase and removed all special characters
- ▶ Randomly sampled 155 vocab terms from school subject data
- ▶ Used `inner_join` from the `dplyr` package to match a the “question” to a specific vocab term
- ▶ Grouped the “questions” by subject

## Methods: Determining subject importance and difficulty using joined dataframe

- ▶ Discovered answer value changes after November 26, 2001 and decided to separate data into two categories
- ▶ Calculated number of occurrences of each school subject (most important subject)
- ▶ Calculated average value of all “answers” for each school subject (most difficult subject)
- ▶ Graphed results using interactive heat map faceted by round and date

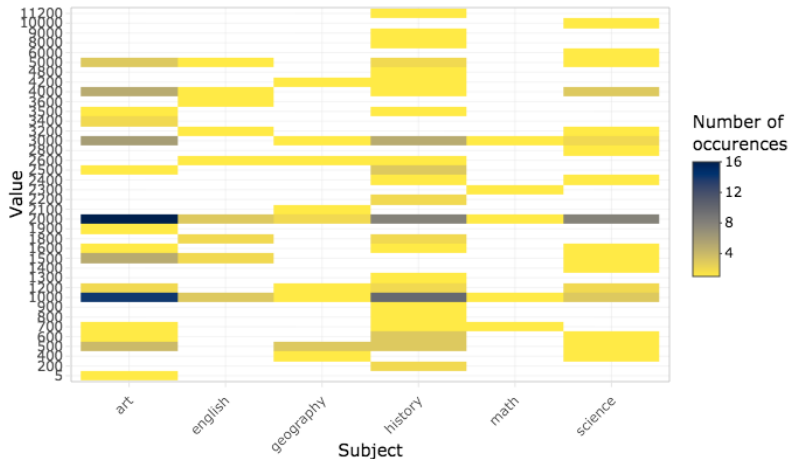

## Results: Heat map for round 1 and 2

# Results: Merging round 1 and 2 heat maps

Daily Doubles: Number of occurrences of subject by value

## Results: Summary Statistics before 11/26/2001

| subject   | Before November 26, 2001 |               |
|-----------|--------------------------|---------------|
|           | mean_value               | subject_total |
| history   | 679.62                   | 471           |
| art       | 782.87                   | 397           |
| science   | 746.59                   | 249           |
| geography | 563.98                   | 236           |
| english   | 645.60                   | 125           |
| math      | 574.29                   | 105           |

## Results: Summary statistics after 11/26/2001

| subject   | After November 26, 2001 |               |
|-----------|-------------------------|---------------|
|           | mean_value              | subject_total |
| history   | 965.05                  | 309           |
| science   | 925.00                  | 280           |
| art       | 1034.51                 | 226           |
| geography | 842.44                  | 172           |
| english   | 1007.35                 | 136           |
| math      | 803.85                  | 78            |

# Conclusion

- ▶ AP test scores: Geo, English, History, Science, Math, Art
- ▶ Round 1: Art, Science, History, English, Math, Geo
- ▶ Round 2: Art, English, History, Science, Geo, Math
